

GOLD

CREATIVE STUDIO

Production-grade AI imagery in the visual language of our photographer Robert Brembeck.

WHAT IT IS

A platform where our clients use production-grade AI workflows themselves – to experiment, play and see what is possible today.

Upload a photo, pick a world, and get an image the way our photographer would shoot it.
Live now as a beta on goldgmbh.de/ai-studio.

GOLD
CREATIVE STUDIO

HOW IT WORKS

Three steps, about one minute

1

Upload a photo

A portrait from the waist up or full length works best. No photo at hand? Use our sample.

2

Choose a world

Pick a curated setting, or describe your own – a prompt enhancer turns it into a full brief.

3

Download

Full resolution, labelled as AI-generated. Your images stay in your gallery for 24 hours.

Access by personal email link – no password, no account to set up. Up to 10 free images per day.

GOLD
CREATIVE STUDIO

THE LOOK

Not a filter – a photographer's handwriting

A custom style LoRA, trained on photographs by Robert Brembeck, carries 25 years of environmental portraiture into every result.

- Curated prompt presets for each world
- Full relight with a motivated accent light on the face
- Off-centre composition, as a portrait photographer frames it
- Analog colour-negative grading and fine film grain

GOLD CREATIVE STUDIO

SECURE BY DESIGN

Your images never leave our AI Studio

Runs entirely locally

The whole workflow runs in ComfyUI on our own hardware in Munich. No cloud service sees your photos.

Deleted after 24 hours

Uploads and results are removed automatically after one day.

Labelled as AI

Every image is marked as AI-generated, in the file and visibly.

No passwords

Access by a personal email link, valid for 15 minutes.

GOLD
CREATIVE STUDIO

ONE WORKFLOW, FOUR PEOPLE

Be Saint Nicholas

Different uploads, one consistent look: the face stays, while costume, pose and light are rebuilt for the scene. A seasonal world like this can become a personalised Christmas card for a whole company.

GOLD
CREATIVE STUDIO

WORLDS IN THE BETA

Six curated settings – or your own

Corporate office

Bavarian mountain lake

Bavarian forest

Hofbräuhaus Munich

Neuschwanstein

Be Saint Nicholas

Or describe any place in a sentence – a local prompt enhancer writes the full brief and keeps the person at the centre of it.

GOLD
CREATIVE STUDIO

BEYOND THE BETA

Workflows built around your requirements

The public studio is a showroom. For clients we build dedicated workflows – your look, your worlds, your people – not taken off the shelf, and run them in a private area of the AI Studio.

GOLD
CREATIVE STUDIO

NO IT PROJECT NEEDED

We provide the entry point – you just use it

Your team gets a ready-to-use access to its own workflow. The models, the hardware and the operation stay with us, so there is no complex in-house implementation with your IT.

Runs in the browser
A link and an email address – that is all

No installation, no GPUs
Nothing to set up on your side

Operated by GOLD
Updates, models and support from our studio

Branded for you
Private access in your look

GOLD
CREATIVE STUDIO

ALWAYS STATE OF THE ART

Looked after by our imaging specialists

AI is changing faster than any in-house team can follow. We monitor your workflow and the results it produces, and regularly bring it up to the current state of the art – so you always work with the best that is available right now.

Monitored

Our imaging specialists keep an eye on quality and results.

Updated regularly

New models and techniques are tested and brought in.

The best available

Your look stays the same, the technology keeps improving.

GOLD
CREATIVE STUDIO

TAILORED WORKFLOWS

What we can build for you

Team headshots in your CI

Same background, light and look for every portrait on your team page – also for the people who join in two years.

Seasonal campaigns

Personalised Christmas or anniversary cards for staff and clients, in your brand's scenery.

Events and trade fairs

An AI photo booth: guests are photographed and get their image in a branded world on the spot.

Your products and characters

Custom-trained models for products, mascots or recurring characters, consistent across a whole campaign.

GOLD
CREATIVE STUDIO

PROFESSIONAL FINISHING

From AI image to final image

Results depend on the input and, like most AI images, usually need finishing in post. That is our core business: high-end retouching, compositing and print-ready delivery since 2002.

Request professional retouching

Right next to the download button. One click opens a request to our studio team, and we reply with a quote.

For tailored workflows, finishing can be part of the package.

GOLD
CREATIVE STUDIO

WORKING TOGETHER

From briefing to rollout

01

Briefing

Look, worlds, users, volume

02

Prototype

First workflow and test images

03

Refine

Tuned with your feedback

04

Rollout

Private, branded access for your team

05

Finishing

Retouching on request
